## **Motion:**

THAT CAUT call on Ontario Universities to respect the protections for workers included in Bill 148, and reject the Conservative government's new Bill 47, which removes many important protections for workers on university campuses in the province.

## **Rationale:**

Ontario's new Labour legislation, Bill 47, cancels the increase of the minimum wage to \$15. It also removes workers' two paid sick days, fairer scheduling changes, equal-pay measures, and other modest improvements to working conditions that had been contained in the previous Bill 148.

These changes are not in the interest of equity and fairness for our colleagues and workers on university campuses in Ontario and should be rejected by CAUT's Ontario member faculty associations.
